

Solid Plastic Hygiene Doors

FlipFlap rigid swing doors are constructed from solid 15mm thick high-density polyethylene equipped with heavy duty stainless steel self-closing hinges. They are designed to withstand the rigours of heavy use.

Polyethylene is known industry wide as a strong, durable material with a smooth, waxy surface that is easy to keep clean. It is impervious to a wide range of harmful agents.

The **FlipFlap** has been fitted with a strong food grade stainless steel spine and hinge assembly to create a simple, rugged, hygienic and good looking door.

FlipFlap doors are easy to maintain and provide a long service life.
